## PROFILE

Full-stack developer with strong experience in AI-powered applications, educational technology tools, and e-commerce platforms. Skilled in Python, JavaScript, React, Node.js, C++, SQL, and cloud APIs. I've built real, production-level tools used by teachers, students, and companies, including AI scoring systems, code reviewers, dashboards, and e-commerce sites. I focus on clean code, fast execution, and practical problem-solving. Currently pursuing a Bachelor's degree in Computer Science at Information Technology University.

## WORK EXPERIENCE

### 2025 (May-Aug)

Smart Education LLC

#### AI Developer

- Developed AI-assisted learning tools using Python, React, Node.js, Vertex AI and OpenAI.
- Built automated scoring and evaluation systems used in real classrooms.
- Designed data pipelines, backend logic, and dashboards to improve student assessment.
- Contributed to the design of intelligent learning apps with a focus on reliability and user experience.
- Received an official Certificate of Appreciation for dedication and innovation.

### 2022 - 2024

BFT

#### Software & Full-Stack Developer Head

- Delivered full-stack features and client projects across both software and web development teams.
- Built and optimized responsive websites and e-commerce stores using Shopify, Magento, HTML5, CSS3, JavaScript, and PHP.
- Integrated payment gateways, improved performance, and applied SEO best practices for better visibility.
- Handled debugging, deployments, and code refactoring to ensure stability and maintainability.

## CERTIFICATIONS

### FULL-STACK WEB DEVELOPMENT, UDEMY (2023)

TECHNOLOGIES: HTML, CSS,  
JAVASCRIPT, REACT, NODE.JS,  
EXPRESS, MONGODB

### ADVANCED C++ PROGRAMMING UDEMY (2023)

OOP, STL, ALGORITHMS, ADVANCED  
MEMORY MANAGEMENT

## SKILLS

- Languages: Python, JavaScript, TypeScript, C++, PHP
- Frontend: React, HTML5, CSS3, Tailwind
- Backend: Node.js, Express.js, Flask/FastAPI
- Databases: MySQL, PostgreSQL, MongoDB
- AI/ML: OpenAI API, Google Vertex AI, NLP pipelines
- Other: Git, REST APIs, Shopify development, Payment integrations

## EDUCATION

**Information Technology University**  
BS Artificial Intelligence (In Progress)  
**Bloomfield Hall School**  
O/A Levels

## LANGUAGES

- English
- Urdu
- Hindi

## P R O J E C T S

- **AI Essay Scorer**

AI-powered web tool that evaluates essays, generates detailed feedback, and grades student responses using NLP and custom scoring models.

- **AI Code Reviewer**

Built using Python + Streamlit (converted to React). Automatically analyzes student code, flags errors, explains issues, and gives improvement suggestions.

- **Smart Education AI Tools**

A set of classroom-ready assessment tools used by a UAE-based EdTech company (under NDA). Includes dashboards, scoring engines, and evaluation logic.

- **UCL & Nations League Database Systems**

Complete SQL database systems with properly linked tables for teams, players, stadiums, tournaments, and more.

- **E-Commerce Websites (Shopify + Custom Backend)**

Multiple stores developed with theme customization, custom logic, and secure payment integrations.

- **Custom Payment Gateway Simulation**

Node.js backend + simple frontend showing checkout → webhook → payment status.

- **AI-Powered Resume Analyzer**

Takes a PDF → analyzes → gives score + improvements.

- **Micro-SaaS: Text-to-Notes Converter**

Upload audio → converts to notes → summary → export PDF.

- **Real-Time Collaboration Whiteboard (WebSockets + Canvas API)**

Built a real-time collaborative whiteboard with multi-user drawing, WebSocket syncing, smooth conflict handling, and simple export + role-based access.
